Thanks, Ben. I did hear from Dan and we are making some revisions before sending the fact sheet on to the CAG.

Hi Terrie,

I have no comments on the Fact Sheets – look good to me. Please wait to here from Dan (if you haven't already) for any comments before going forward.

Thanks,
Benjamin M. Washburn

Subject: TASC fact sheets for review

Hi Dan and Ben,

Attached is a fact sheet about the ground water at the West Lake Landfill and a fact sheet about units of measure. These are draft copies for your review. We included the Oct 2013 sampling results in the fact sheet and understand that we can't release the fact sheet to the CAG until EPA posts the Oct monitoring report. We hope the report will be posted soon, as the CAG would like more information as soon as possible.

Thank you for looking at these documents. We appreciate your knowledge and long history with the site and willingness to let us know if there are any technical errors in the documents. The CAG has also requested an opportunity to review and comment on the documents before release to the general public. That is the next step for these documents.

Terrie
